

## FGUA Seven Springs System Flushing

The Florida Governmental Utility Authority (FGUA) will be conducting system flushing as part of its prudent utility practice in the Cypress Lakes, Heritage Lake, Millpond Commercial, Millpond Estates, Millpond Lakes, Millpond Village, Park Lake Country Trace, Park Lake Estates, River Oaks, Riverside Village, Villa del Rio, Woodtrail Estates and Woodtrail Village communities of New Port Richey beginning Monday, January 4. During this activity customers may notice discoloration and or cloudiness in their tap water. Customers may also find air in the system. The discoloration and air are harmless. Customers who come across discoloration or air should run water through the tap until it runs clear. Some areas may experience a temporary fluctuation in water pressure.

Crews will be flushing in the area only during normal business hours (8 a.m. to 4 p.m., weather permitting). **Customers should use caution** when operating machines or other water-using devices while the work is taking place in the area. The discoloration, while harmless, **could cause staining** on fabric.

Where practical, we will provide 24-hour notice to the area using local media and/or signage when work is about to begin. Customers should plan their water use accordingly.

Customers may contact the FGUA Pasco Customer Service Office at (727) 372-0115 with any questions.
