Emergency Water Supply Check List

- [ ] Account for everyone in your household, including pets, when calculating how much water you need.
- [ ] Calculate water for drinking, cooking, brushing teeth (1 gallon per person per day).
- [ ] Consider storing additional water for washing and basic sanitation.
- [ ] **Water From Home**
  Clean, food-grade containers with tight closing lids.
- [ ] **Water From Store**
  Unopened commercially bottled water.
- [ ] Stored in a cool location away from direct sunlight and household chemicals.
- [ ] Replace water stored in household-filled containers every six months.
